Detailed Action

This is the second Office Action corresponding to amendment filed Dec 2, 2002.

Drawings

The drawings are objected to for the reasons set forth in Draftsperson's attached PTO-948. Correction is required.

Claim Rejections - 35 USC § 112

Claims 1-11, and 14-17 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The specification provides no basis for "a functionable portion" for the device.

Applicant must amend the specification to provide an explanation for the functionable portion now recited in the claims.

Claims 1-11, and 14-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The clause "functionable portion" makes the claims indefinite, what is a "functionable portion"?

Claim Rejections - 35 USC § 103

Claims 12 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Nielsen et al.

Please refer to the former Office Action for a description of the Nielsen et al. patent. The device shown by Nielsen et al. can wrap a device and its magnet can secure the wrap to a magnetic surface. As to claim 13, the use of a decorative pattern is not considered to have any patentable weight.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 3632

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
